Share Close

You can choose one of three complete curricula (15 modules) with or without certification. Depending on the focus of your work, you have the choice between:

**Track A** - For Executives such as CPDs / Purchasing Managers or even Managing Directors and CSR Managers who want to learn more about the implementation of sustainable procurement.

**Track B** - For commodity group managers or purchasers who would like to know more about the hotspots in specific product groups.

**Track C** - For supplier managers who want to know more about how they can improve sustainability performance together with their suppliers.

> Track A - Executives & CSR Managers (without certificate)

> Track B - Category Management (without certificate)

> Track C - Supplier Management (without certificate)

> Track A - Executives & CSR Managers (with certificate)

> Track B - Category Management (with certificate)

> Track C - Supplier Management (with certificate)

Description Learning plan

Contents

In the first part of the curricula, you will first complete the seven basic module sustainable procurement.

Afterwards, in curricula A we pay attention to the challenges of strategic purchasing modules. The argumentation for sustainable procurement with the management case plays a major role here. You will also learn how to define the appropriate a sustainability program for procurement. You can support the Sustainable Development, so we present you some sustainable procurement measures specifically a successfully implement all these measures, intensive communication work is not only employees and superiors, but also internal stakeholders and suppliers are well.

In the third part of the curriculum you choose three of the offered additional knowledge depending on your interests and topic prioritization.

After successful completion of the 15 modules of the curriculum, you will take part in an event at the CBS International Business School. You will then be able to exchange with the other participants and trainers and prepare for your written submission. Once you have passed the examination, you will receive the international certificate "Sustainable Procurement Professional" including 6 ECTS points which can be used in your programmes.
