

SUSTAINABLE PROCUREMENT CAN CHANGE THE WORLD!

„The JARO Institute's training in this groundbreaking area of sustainable procurement is unique in both the German and international context.“

(Prof. Dr. habil Elisabeth Fröhlich, Professorship Sustainable Procurement Management)

Learning Objectives

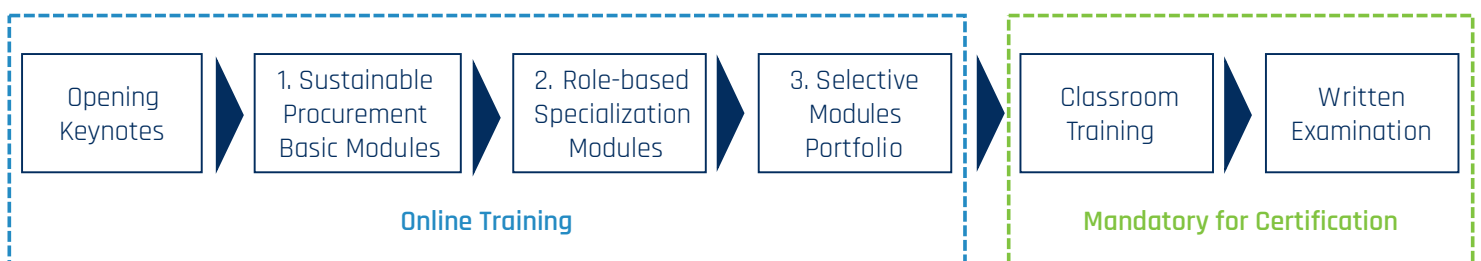

- » You are familiar with the current discourse as well as the central concepts and methods of sustainable management and can apply them systematically in procurement.
- » You know the instruments and solution approaches relevant to your purchasing role and are able to implement sustainable procurement in a structured manner.
- » You have additional technical and methodological skills on key topics that specifically support you in the implementation of sustainable procurement.

Benefits

- » Internationally valid IEDC Bled School of Management certificate with 6 ECTS points or JARO confirmation of participation for participants without classroom training and examination.
- » A practice-oriented and customizable sustainability training program designed specifically for procurement professionals based on a modular system.
- » Three different curricula for various procurement roles depending on the participant's occupation.
- » Modern learning platform (JARO Academy).
- » 14 dedicated thought leaders and sustainability experts of the JARO Academy.
- » Official state accreditation by ZFU (State Central Agency for Distance Learning) in Germany requested and in progress.
- » Corporate clients can integrate the complete course (SCORM format) into their company's learning management system (LMS). For further information and corporate pricing please contact academy@jaro-institut.de.

Course Outline
